

ORNAMENT CRAFT

Grab a jar and make this for your Christmas tree!

You will need:

- Scissors
- Mason/Ball jar lids
- An ink pad (we recommend red!)
- Yarn or string

What to do:

1. Print the Ornament Template from our website.
2. Cut out the photos & backing on the Ornament Template in the size that's right for your jar lids.
3. Glue the photo and backing together.
4. Press your thumb to the ink pad and put two thumbprints on the photo in the shape of a heart.
5. Glue around the edge of each photo and press it into the ring of one jar lid.
6. Once the glue has dried, poke a small hole in the top of the photo & thread your yarn or string through it.
7. Tie a bow at the top of your string.
8. Repeat for each photo.
9. Hang your new ornaments!
